Shift Team 6 **Meeting Minutes**
2/25/2021

Attendees:

- Cody Ezell
- Corey Welborn
- ~~David Lamb~~
- Steven Davis
- Zachary Light
- Matthew Crocker

Items Discussed and Decisions Made:
- Final logo decided. It will be a Q made out of a barcode with a gold background.
- Database is now online and functional but not connected to the app.
- Corey revealed his GUI design for the home page.
- We talked about changes that may need to be made to his design. There were too many buttons that did things we did not plan for our app to be able to do.
- Cody and Matthew revealed their GUI design for the other pages/fragments of the app.
- We discussed the initial functionality they needed to have in each page.
- Discussed problems uploading project to github so we can all access code.
- Declared fragments needed and their functionality:
  - Login/signup page
  - Home page
    - Inventory
    - Scan
    - Manual input
    - home
    - Account info
    - settings

Action Items:
- Zach will figure out how to connect the app to the database.
- Cody, Corey and Matthew will combine their GUI fragments and implement other fragments and desired changes.
- Stephen will begin working on presentation for midterm review.
