<div align="center">

Shift Team 6 **Meeting Minutes**
4/1/2021

</div>

Attendees:

- Cody Ezell
- Corey Welborn
- Steven Davis
- Zachary Light
- Matthew Crocker

Items Discussed and Decisions Made:
- Documentation – reviewed requirements table
- Converting java code to Kotlin for easier coding
- Discussed learning and using PHP for other database interactions

Action Items:
- Everyone will work on documentation
- Cody will develop onClick functions for the inventory items
- Matthew will add his scanner program as a fragment to the main app
- Steven will work on creating a Details fragment that will be the destination of Cody's onClick function.
- Zach will work on learning how to pass data to Details Fragment
- Corey will try to develop coding for database interaction within Details fragment.
